 2. Fixed the issue of the abnormal RCA audio signal.
-

Nov.04, 2022

DAC-9P 4K Firmware

- **Version: 20221012**
 - **File name: DAC-9P 4K Firmware Update_v.20221012**

Issues

1. Fixed the issue that if there is no audio for the HDMI input, if the DAC-9P 4K switches to RCA, there is no RCA audio for the SDI output.
 2. If the FW update tool v1.06 can not be run normally under the Windows environment, the included Visual C++2013 exe file "vcredist_x86.exe" must be installed.
-

Sept.05, 2022

DAC-9P 4K Firmware

- **Version: 20220818**
 - **File name: DAC-9P 4K Firmware Update_v.20220818**

Issues

1. Fixed the issue that it is possible that the VIC is not updated by the GS12170 and there is no output image signal. And users need to replug the power and then turn off and turn on the power to solve this issue.
